

Job Description & Person Specification

Position Title: **Qualified Agricultural Service Technician**

Hours: The role is a full time 40hr/pw position with overtime at 1.5 hr rate

The Role

We are looking to recruit an enthusiastic, conscientious and experienced service technician to join our busy workshop. The ideal candidate should have significant previous experience of a wide range of agricultural equipment and current diagnostic methods.

As Isle of Man representatives for some leading agricultural brands we are looking for someone to lead the workshop in the service and maintenance of the agricultural equipment we sell. We would be particularly interested in hearing from candidates who already have extensive knowledge and experience within the agricultural engineering field and who would be interested in bringing on the technicians of the future. There is an opportunity to undertake continued professional development through manufacturer led training schemes and certification.

Duties and Responsibilities

Working as part of our busy team in the workshop, you will find the role and jobs to be undertaken varied, challenging and routine. We are looking specifically for an experienced engineer whose skills and drive for accuracy and attention to detail will ensure the machines and implements we sell are well maintained.

Isle of Man

The Isle of Man is located between England and Ireland in the middle of the Irish Sea. With farming and agriculture being an integral part of Island life, you will be contributing to the efficient running of the Island. Many of the local shops and restaurants rely on the local farmers and in turn they rely on us to keep the wheels turning.

For more information about the benefits of living on the Isle of Man, including the very favourable tax system please see <https://www.locate.im>

Package

In return the position comes with an excellent package, including but not limited to support relocating, holiday and sickness pay as standard, use of a van, phone contract, clothing allowance, bonus scheme and competitive salary (35 - 45K per year based on experience).
