

## Job Description & Person Specification

Position Title: **Agricultural Service Technician**

Hours: The role is a full time 40hr/pw position with overtime at 1.5 hr rate

### The Role

We are looking to recruit an enthusiastic, conscientious service technician to join our busy workshop. The ideal candidate should have a sound knowledge and ideally some experience within the agricultural engineering field. There will be an expectation to undertake continued professional development through manufacturer led training schemes and certification.

This position would particularly suit someone who has grown up around agriculture. We would be interested to hear from anyone who has been self taught basic mechanic skills and would like to progress further. Evidence of practical experience is essential.

### Duties and Responsibilities

Working as part of our busy team in the workshop, you will find the role and jobs to be undertaken varied, challenging and routine. We are looking specifically for a highly motivated team player to support our busy workshop with tasks including regular servicing of machinery to a high standard.

### Isle of Man

The Isle of Man is located between England and Ireland in the middle of the Irish Sea. With farming and agriculture being an integral part of Island life, you will be contributing to the efficient running of the Island. Many of the local shops and restaurants rely on the local farmers and in turn they rely on us to keep the wheels turning.

For more information about the benefits of living on the Isle of Man, including the very favourable tax system please see <https://www.locate.im>

### Package

In return the position comes with an excellent package, including but not limited to support relocating, holiday and sickness pay as standard, phone contract, clothing allowance, bonus scheme and competitive salary (approx 25 - 35K per year based on experience).
